

## Teaching Graffiti and Street Art Through a Lens of Artists:

You can organize your Graffiti and Street Art curriculum through a lens of specific notable artists by having students study and imitate the work and style of those artists. Here is a list of some notable Graffiti and Street Artists.

**Disclaimer:** This is by no means a complete list, and contains international and domestic artists, with some more widely regarded than others, and working in many different mediums. When choosing artists for your students to study, I would implore you to research any artists local to your area, it will make your lessons more relevant for your students.
